Dear Grafton Planning Board and Board of Selectmen:

I have learned of the plans to put a dense housing development into the heart
of Brigham Hill of North Grafton. I request the boards oppose this project.
Putting a housing development in the middle of several other properties
designed to provide habitat for wildlife, and provide unspoiled land for the
citizens of Grafton would negatively impact the other properties. In
addition to the negative environmental impacts, a densely packed housing
development would negatively impact Grafton economically for years to come.
Yes, we may see more tax revenue.....but with that would come demand for more
infrastructure to be provided by the town. The housing development would
undoubtedly add many new children to the school district, potentially
stretching our already rapidly expanding school budgets. The short term gain
for some housing developer would negatively impact the town for generations,
both environmentally and economically.

Again, I urge the planning board and board of selectmen to oppose this
project.

Sincerely,

Denise Wunn

Resident of North Grafton for 16 years
